Educational Activities – Available all season

Sesame Street® - My World is Green & Growing

Don't miss out on the best field trip of the year! Bring your class to Sesame Place to learn the importance of caring for our environment while enjoying a day at the park.

Our conservation education program was developed in conjunction with Sesame Workshop's Research Department to meet your state's curriculum requirements. Based on your time of arrival, your school will receive a customized itinerary. Teacher Activity Packets will also be sent in advance for pre- and post-visit class activities. Students will rotate among three different sessions that focus on Water Conservation and Reusing (arguably the most important of the three "R's" of Recycling). A hands-on craft activity features recycled supplies, and you'll help us create a garden out of composted materials. To enhance their learning experience, all students will receive a field guide to the park. This program is available by reservation only and space is limited. Book by April 1, 2010 and receive a free copy of Sesame Street's "Love the Earth" DVD for your class.

Sesame Place is a safe facility. We have our own security department and Middletown Township police are on site daily. All Sesame Place lifeguards are certified and are positioned in all water areas.

All educational programs were created by the experts at Sesame Workshop. For more information, or to reserve your date, please call Group Sales at 1-866-GO-4-ELMO.
